Four venues for Winter Cross Country Season

- UOW Shoalhaven - Our new home of running. A mixture of grass and bush trails, plus plenty of kangaroos and amazing scenery.
- Longreach - An old favourite, especially that hill for the long course runners. Fire trail for runners 1km to medium. Long course runners, mostly gravel road, some trails and a short bitumen section.
- Huskisson - All distances use the Huskisson fire trails. A fairly flat, fast course.
- Hollyhill - Pure cross country course. Grass and some testing hills. A lot of work on the course has been done since last season, so come out and take the hill challenge.
